A PRICE OF SHARP PRACTICE.

Important Documents Reported Stolen from the Recorder's Office, Reno, for the Sierra Nevada Company.

The San Francisco Post of the 7th says:

A startling discovery has been made in connection with the controversy between Union Co. and Sierra Nevada. Certain testimony taken in the case of the Sierra Nevada Silver Mining Company vs. the American Gold and Silver Mining Company, which is valuable as evidence should the dispute between the former corporation and the Union Consolidated be brought into the courts, has been stolen from the papers in the office of the custodian of the records in Storey county, Nevada. By whom the theft was perpetrated is not known, but the matter is now being worked up at Virginia City, and the guilty party will probably not escape. The case alluded to was tried by a jury in the District Court of Storey county, in the Territory of Nevada, in 1863, Gorden N. Mott being presiding Judge. A full transcript of the testimony was taken by a phonographic reporter appointed for that purpose. Among other witnesses whose testimony was thus reported, was Henry Miller, one of the original locators of Sierra Nevada, who was examined on behalf of that company. His testimony was to the effect that in laying off the location of Sierra Nevada they set the stakes in a certain position and subsequently moved them southward. Afterwards they were again changed northward. It is a certified copy of this evidence that has been stolen from the Clerk's office."

The Post adds: "While the loss of this evidence does not weaken the title of the Union Co. to the ground, it shows that sharp practice has been resorted to. By whom remains for those who are working up the case to solve."

Most FAMILIES die out in 200 years; but the Van Rensselaers have proved an exception. Many of them are scattered through New York and New Jersey and other States, the name and all bearing the name are collaterally connected—being found more or less in all sections of the Republic. The founder of the family, Killian Van Rensselaer, was a rich merchant in Amsterdam, who bought in 1630 a large tract of land from the Indians on the west bank of the Hudson, including Fort Orange (now Albany), and sent out from the Netherlands a number of agriculturists and mechanics to occupy his domain. Seven years later, he purchased from the savages for a trifle an immense tract on the east bank of the river. It extended twenty-four miles along the Hudson, and forty-eight miles from east to west, including the greater part of Albany, Rensselaer and Columbia Counties, and called the "Coloniae of Rensselaerwyck," of which he was sole proprietor or patroon, as the owners of land with manorial privileges and the right of entail were then named. That purchase made all the direct descendants of the patroon very rich. Much of the land still remains in the hands of the family. In 1664 the colony passed into the hands of the English, who confirmed the right of soil to Van Rensselaer, but transferred the sovereignty to the British Government. There have been fewer better real estate transactions in the New or Old World than the purchase by the patroon 250 years ago. It was almost as good as the buying of the whole of Manhattan Island from the natives by Peter Minuit for \$24."

CONNECTICUT AND NEW YORK are again disputing about boundaries. A settlement of these very small inter-state quarrels should have been one of the celebrations of the centennial year.

The fifteenth consecutive monthly dividend of the Standard Mining Company, amounting to \$1 per share, or \$50,000, has been declared, payable next Tuesday.

NEW ORLEANS sends the encouraging report of the gradual resumption of business.

The Porte has sent a note to Prince Leopold, pointing out the fact that the Russians are powerless to repress the Bulgarian movements.

After a long and animated debate and many calls to order, the French Chamber of Deputies declared the election of M. Paul de Cassagnac invalid.

An ex-soldier in Madrid Thursday attempted to assassinate General Berenguer, formerly Minister of War. The General was uninjured. The assassin was arrested.

The Porte has sent a circular to the Powers setting forth important reasons for not convoking Parliament this year, but declaring that the Sultan is resolved to maintain the new Constitution.

While Governor Hampton was hunting Thursday his mule became frightened, and the bridle breaking the Governor leaped from the saddle. By the fall the Governor's right leg was broken in two places, the bones protruding, and his ankle was badly hurt.

The telegrams from Northern and Eastern Europe announce heavy snowfalls. Appenines and the Black Forest are covered and the Swiss passes blocked with snow. In France the rivers are very high. The Seine threatens inundation.

The health of the Czar is becoming more and more unsatisfactory and causes much anxiety. Count Schouvaloff has left Lavia for London, the state of the Emperor's health not permitting a decision upon the pending political complications.

Washington Thomas, formerly a wealthy shoe dealer, and an active partisan of Tammany Hall, hanged himself Tuesday night, soon after ascertaining the fate of his party. He had been promised an appointment if the Tammany ticket should be elected.

The Sacramento Grand Jury has adjourned. It found 104 true bills of indictment. Among them is one bill against Samuel Poorman, late President of the Odd Fellows' Bank, for embezzlement and five charges of misdemeanor for overdrawing his account in the bank. Mr. Poorman came up from San Francisco and gave bail, and says he is ready to stand trial and show all absence of criminal act or intent. Joe Davis and Max Macnease was indicted as ex-officers of the defunct Dime Savings Bank on ten cases of misdemeanor and four cases of embezzlement committed in the transaction of the business of that bank. Both are on bail. The jury also found twenty-three bills against H. J. Palmer for embezzlement and false entries in the books of the Sacramento Savings Bank. Palmer has given bail and says he is ready for trial.

Johnson's jewelry store, in Eighth avenue, New York, was robbed Thursday evening of \$2,000 worth of clocks and watches in the presence of a large number of passers-by. Shortly after 6 o'clock two men entered the store. One closed the door, and the other, with a revolver, kept in their places Mr. Johnson, the proprietor, his clerk and a customer. The two others then broke the large plate windows and packed into bags the stock exposed. While they were thus occupied two others, armed with pistols, ordered the passers-by to move on. The property having been packed; the thieves, still protected by their companions, moved quickly to a butcher's cart in waiting at the corner and drove rapidly away. The two who had kept possession of the store received a preconcerted signal, turned on their heels and fired their pistols in the air, stampeding all the people, and the thieves all escaped.

LABOR TROUBLE IN EUROPE.

While the great army of toilers in this country are complaining of reduced wages, or partial employment, the same class in Europe are similarly troubled, but probably to a worse extent. From England comes the cry of suffering operatives in the great cotton mills of that Kingdom, whose wages have been reduced to a point that barely permits the purchase of the commonest necessities of life. In the woolen districts there is equal suffering; and as both branches of industry are demoralized from over-production, we do not see how the condition of the employee can be improved at present.

From Scotland comes the same complaint, of unremunerative business to the manufacturers in every class of fabrics—in cotton, silk, wool, and iron—and also in the great steamship building districts on the Clyde, where a second reduction of wages within eight months is announced. The artisans in this vast industry have rebelled against a further reduction of wages, and are now on "a strike." We fear this policy will only increase their sufferings, for it is evident that iron ship building is at a low ebb—the announcement being recently made in the London *Times* that more steam and sailing vessels were now idle than ever before in the history of Great Britain.

The Empire of Germany, which claims to be the military dictator of Central Europe, and whose people are noted for their persevering industry, is also troubled with stagnation and decay in several of her leading industries—especially in her cotton and woolen trade. During her wars with Austria and France these manufactures were unusually profitable, and employment sought the laborer, with high wages, in her provinces. But now the same general bright has fallen upon her thousand mills, and she is toiling under difficulties that environ the manufacturers of great Britain and the United States.

The reader, unless the manufacturer of some general textile, will naturally ask, "What is the cause of this stagnation in the world's great and multitudinous industries?" The answer is, over-production. Manufacturers have increased spindles, looms and mills faster than the consumption of fabrics; and now we must curtail production; the manufacturers must be satisfied to go slow, live more economically and accept small profits. The toiling classes will probably submit, philosophically, to reduced wages—consoling themselves with the fact that the necessities which support life are cheaper than they were, and that the world is still attractive to the majority of us.

THE STATE TICKET.

It is hard to tell who is elected to several of the State offices. Kinkhead's handsome majority in Storey settles the question definitely for him and now he is Governor Kinkhead. The fight between Mighels and Adams is one sided, the Democrats having almost a sure thing. Crockett is doubtless elected Treasurer by a small majority. Hatch is crowded very closely by Day, with the chances rather against him. Bicknell needs all of his votes and may be a few more to send Rule up Salt River. The rest of the Republican ticket will take position in the State Capitol for the next four years beyond doubt. The Republicans will have the control of the Assembly and probably the Senate. The victory is evidently a sweeping one, and the battle born State has been redeemed. Glory enough.

THE LONDON "TIMES" ON THE AMERICAN ELECTIONS.

The London *Times*, on the elections in the United States, says: It is with very sincere satisfaction that we publish the results of the November elections in the United States. The gravity of the issues on which the elections had practically to decide could scarcely be overestimated and there was some ground for apprehension that the caprice of the Democracy might turn the scale in favor of rock- ing agitation and a ruinous policy. Now, as often before, the good sense of the American people has come to the rescue just in time to save the country from the consequences of party blundering and immorality of professional politicians. Little thanks are due to the leaders of the Republican party, and still less to those of the Democrats. Neither side can be exonerated from the guilt of paltering with inflationist, repudiationist, and socialist agitations which culminated in the foundation of the Greenback Labor Party.

The *Times* thinks it not improbable that both Tilden and Thurman will disappear from the front ranks of the Democrats before 1880, and that Bayard will be their candidate for President.

IS HATCH ELECTED?

Michael Crockett by Rule—Crockett Elected Treasurer by a small Majority—The Legislature Republican.

BLAESTERN INTRIGUE.

NEVADA.

CARSON, Nov. 8.—Following is the official count of Ormsby county on the State and Legislative tickets: Daggett 638, Deal 408, Hawley 704, Cole 343, Kinkhead 638, Bradley 400, Mighels 494, Adams 532, Babcock 631, Baker 405, Bicknell 734, Rule 310, Hallock 573, Elstner 471, Crockett 634, Jones 408, Murphy 583, Kittrell 456, Hatch 538, Day 502, Hammond 588, Sessions 449, Varian 394, King 644, Gilson 482, Meder 543, Parker 433, Wilson 430, Combs 430, Gibson 631, Wilson 533, Howe 618.

EUREKA, Nov. 8.—One or two small precincts are still to hear from. Kinkhead carries the county by 60, while Mighels and Adams run about even. Out of 104 votes in the Richmond mine Adams received 96. The balance of the Republican State ticket runs about 75 ahead, with the exception of Hammond, who probably loses the county by small majority. We have not tabulated yet and do not pretend to give exact figures, but the above is approximately the result in this county. The Republicans elect five members of the Legislature and most of the county officers.

GENOA, Nov. 8.—The following are the majorities on the State ticket in Douglas county: Kinkhead 25, Mighels 17, Daggett 65, Hawley 87, Hallock 52, Crockett 69, Babcock 94, Murphy 64, Hatch 52, Bicknell 75, Sessions 35. For State Senator Danberg beat Haines by two votes. Lichel and Irvine, Republicans, were elected to the Assembly.

LYON county elects three Democratic county officers—John Powell, District Attorney, by 6; John Lathrop, Recorder, by 15, and John G. Young, County Superintendent of Schools, by 30.

STORE COUNTY returns are complete except the first and second Wards. The vote stands: Bradley 2170, Kinkhead 2643, Adams 2436, Mighels 2374, Deal 2323, Daggett 2507, Cole 2147, Hawley 2663, Kitterell 1985, Murphy 2826, Rule 2447, Bicknell 2387, Baker 2179, Babcock 2657, Jones 2248, Crockett 2614, Elstner 3313, Hallock 2550, Sessions 2357, Hammond 2404, Day 2268, Hatch 2596. In the second Ward the total for the principal offices was as follows: Bradley 418, Kinkhead 569, Deal 441, Daggett 538, Adams 456, Mighels 527.

EASTERN.

Galveston returns show almost universal majorities for the Democratic State ticket. The following Congressmen are undoubtedly elected: Reagan in the first; Culver in the second; Walborn in the third; Mills in the fourth. Schleicher in the sixth and Hannock in the fifth are doubtful, the Greenbackers polling an unexpectedly large vote in the latter district, and it may require the official count to decide.

PHILADELPHIA, November 8.—The latest reports from the Eleventh Congressional District indicate the election of Robert Klotz, Democrat, by a small majority. This will make the Pennsylvania delegation in Congress stand 16 Republicans, 2 Greenback Republicans, 8 Democrats and 1 Greenback Democrat. Very little is known of the complexion of the next Legislature, but the lowest estimate places the Republican majority on joint ballot at 36.

MORE OF IT.

The Central Pacific Huntington ring has made a new turn in the screws it has applied to commerce and the national government by suddenly forming another conciliation by which its so-called "Southern Pacific Road" of California will be run as a mere tender to the Atchison, Topeka and Santa Fe road, which is substantially controlled by the Union Pacific crowd. This is in the interest of the vast power which hopes forever to control the legislation and prevent the construction of any competing lines. But it is likely that another combination will interfere with this little game. The Government officers and merchants have called a Convention to meet in Chicago November 12th. One paragraph of the call is as follows:

"We are convinced that such cheap rates of transportation across the Continent, from the Mississippi Valley to the Pacific Coast, as will encourage and develop our trade with China, India, Japan and Australia, will never be secured until the monopoly possessed by the present Pacific railroads shall be broken down, and we recommend that Congress take such action as will lead to the speedy completion of these competing lines on such terms and under such conditions as will secure the Government against pecuniary loss."

A deep interest is felt in the result of this convention, for something must be done to reduce the power of the present monopolies.

THE THOUSAND MORMON CONVENTS during the past season is a rather good outlook for the "twin ratio."

DECADING POLYGAMY.

Alarming Increase of the Crime in Utah—An Appeal from Gentle Women to Their Sisters All Over the Land:

The following was adopted at a meeting of the non-Mormon women of Salt Lake:

"To Mrs. Rutherford B. Hayes and the Women of the United States: It is more than thirty years since polygamy was planted on the shores of the Great Salt Lake. During these years Congress has utterly failed to enact efficient, or enforce existing laws for the abolition of this great crime, and we believe that more of these unlawful and unhallowed alliances have been consummated during the past year than ever before in the history of the Mormon Church.

Endowment Houses—under the name of temples—are being erected in different parts of the Territory, costing millions. It is impossible to ascertain the exact number of polygamous marriages, for they are concealed in these Endowment Houses, an institution no Gentle is permitted to enter—where brotherhood and sisterhood are sealed and bound by oaths so strong that even apostates will not reveal them, and to mention which witnesses on the stand unblushingly perjure themselves, and when on a jury violate all considerations of law and duty. Considering all our surroundings, polygamy has never taken such degrading and debasing form in any nation or among any people above the condition of barbarians as in Utah. It is degrading to man and woman, a curse to children and a destruction to the sacred relations of family—upon which the civilization of nations depend—and there are things that can not be repeated or printed that reduce the system to the lowest form of indecency. That it should be practiced in the name and under the cloak of religion; that an apostate polygamist, with four acknowledged wives, is permitted to sit in Congress, only adds to the enormity of the crime and makes it more revolting to our common Christian principles. Our Legislature is composed almost entirely of polygamists and members of the Mormon priesthood, and they have thrown around polygamy every possible legislative guard in their power, and right of dower has been abolished to break down the distinction between the lawful wife and the concubine. The Mormons are rapidly extending their settlements into Arizona, Idaho, New Mexico and Wyoming. They have the balance of power in two Territories and are without doubt, plotting for it in others. We call upon all Christian women of the United States to join us in urging Congress to empower its courts to arrest the further progress of this evil, and to delay the admittance of Utah into statehood until this is accomplished, and we ask you to circulate and publish our appeal in order to arouse public sentiment, which should be against an abomination that peculiarly oppresses and stigmatizes woman. It is our purpose to ask names to a petition designed for Congress, and we hope also that every minister of the Gospel will commend it to the women of his congregation, and that all Christian associations will do what they can to obtain signatures. With the cordial co-operation and concerted action of Congress we may confidently hope that the great sin of polygamy may be abolished."

Washoe City's Vote.

A friend hands us the votes polled for the Republican and Democratic tickets in Washoe City. The vote of the Workingmen is not given: Kinkead 29, Bradley 40, Mighels 28, Adams 41, Daggett 39, Deal 39, Hawley 32, Cole 37, Hallock 29, Elstner 30, Crockett 30, Jones 30, Babcock 27, Baker 42, Murphy 30, Kittrell 30, Hatch 29, Day 10, Bicknell 30, Rule 39, Hamm and 30, Sessions 30, Varian 38, King 21, Powning 23, Richardson 25, Wilks 23, Underwood 26, Price 35, Windell 35, Hardin 30, Whitehead 32, Lamb 31, Walker 36, Wickes 28, Parish 38, Everett 28, Haslund 36, Kinney 27, Owens 41, Olinghouse 28, Lemmons 38, Wright 28, Williams 40, Boyd 40, Huffaker 28, Bowman 29, Webster 37, Barker 29, Eaton 37, Dawson 30, Soderberg 35, Jones 29, Hepworth 37. Roger Power was elected Justice of the Peace.

Miss Pierce's Reading.

A select audience assembled at the Old Fellow's Hall last evening to hear Miss Abby L. Pierce read. They had a treat, for the young lady possesses talents of a high order. Her voice is under full control, her manner of delivery excellent and her selections made in good taste. It was an unusually fine entertainment.

Valuable Paper.

The six-page WEEKLY JOURNAL is sued to-day contains all of the election returns received up to date. It contains the Reno vote also. In addition all the local and general news will be found in it. Extra copies can be secured at this office.

Mrs. Lake's Lecture.

The M. E. Church was about two-thirds full last night to hear Mrs. Lake's lecture on "Romanism." She is a talented lady and evidently in great earnest. Frequent bursts of poetical eloquence sparked throughout the lecture. She goes to Carson from here.

ELDER B. A. STEPHENS will preach in the Congregational Church to-day at 11 A. M. and 7 P. M. Sabbath School at 10 A. M. Subject for this evening's lecture, "The United States in the light of prophecy." Public cordially invited.

OLD JOHN POE, the prospector, came from Sierrra county last evening. He looks well and says he has made some valuable discoveries out near the Sierra and Butte mines. He has located several bonanzas.

THE SHRIEVALTY.

Walker the Sheriff—A Little Law on the Subject.

It is now conceded that W. A. Walker, the Democratic candidate for Sheriff, has been elected by a plurality of seven votes. The votes given in the JOURNAL of yesterday have not been changed by any further figures. All the ballot boxes of the eleven precincts have been placed in the custody of the County Clerk, except Mill, and that will come down to-day. The matter is still generally discussed in all its bearings, and all kinds of law quoted to prove this, that or the other. We do not think a suit will come out of the matter, because the Commissioners, when they meet as a Board of Canvassers on the 15th, will carefully count the ballots and award the certificates to the ones entitled. The law governing them is very plain. We copy the section bearing upon all such cases as the one at issue. It is the law defining the duties of County Commissioners, Statutes of Nevada, 1877, page 81:

SECTION 13. The Board of County Commissioners shall also act as a Board of Canvassers and declare election returns and cause a certificate of election to be given by their clerk to any person who shall be elected to any county or township offices within their county. * * * * When said Board of County Commissioners shall have canvassed the vote for county and township offices and it shall appear from such canvass that any county or township officer voted for at such election has received a majority of ten votes or less, in such a case, upon application of the defeated candidate for such office, setting forth, under oath, that he has reason to believe, and does believe, that a mistake or mistakes have occurred on the part of the Inspectors of Election in any election precinct or precincts in said county, sufficient to change the result of such election so far as said office is concerned, it shall be the duty of said Board of County Commissioners to immediately proceed to recount the ballots for said office or any or all the precincts in said county wherein any mistake or mistakes are alleged to have occurred, and shall continue such count from day to day (Sundays excepted) until the votes of all the election precincts wherein any mistake or mistakes are alleged to have occurred, shall have been counted, and when said count is completed, shall declare the result and issue the certificate of election to the party entitled thereto, as determined by their said count; but they shall in no case be allowed to throw out any ballot upon any alleged legal defect, if from the face of such ballot, it can upon inspection, be ascertained for whom the elector intended to cast his ballot, provided that nothing herein contained shall prevent either party to said proceedings to contest the right to said office in the Courts, in the manner now prescribed by law.

The latter portion of this law would seem to conflict with the law against pastries, for it is evident that a voter desires to vote for a candidate if he takes the pains to cut his name out and paste it over his opponent. Two of these kinds of ballots were voted in Reno by Walker's friends, but the Inspectors had to count Lamb's, which was covered over. Now the law provides that if you write a name alongside and fail to scratch out the printed name, the written one shall be counted. Verily the law makers are wiseacres.

The Vote for Senator.

The returns are all in and from them we are enabled to give the votes received by the three candidates for the office of State Senator for Washoe county. The majorities received by Mr. Powning are certainly very gratifying to him and the approbation thus shown of his efforts to further the interests of the county is an ample reward for it all. Below we give the full vote:

JOHN B. WILLIAMS, candidate for Recorder, is elected by about 100 votes. On the 1st of January next he will enter upon his third term as County Recorder—if he lives.

JASPER BABCOCK, Secretary of State elect, and State Mineralogist at Whitehill, came down from the Comstock last night with Governor Kinkead.

THE battlement business is being arranged on top of the Episcopal Church steeple. The church will be finished soon.

ANVILS were fired last night in honor of the Democratic county officers elect—Walker, Parish and Williams.

AL WHITE and Randolph leave for Kirby's Valley this morning, and will spend a week hunting there.

EUGENE GRISWOLD is elected Justice at Wadsworth; Jake Lewis, Constable.

Some of the boys haven't got over the election yet.

WASHOE COUNTY polled just a few over 1400 votes.

KINKEAD carries this county by about 70.
